

Curriculum Vitae

Gunda Thöming, Ph.D.

NIBIO – Norwegian Institute of Bioeconomy Research
Høgskoleveien 7
1433 Ås
Norway

E-mail: gunda.thoeming@nibio.no
Telephone: (+47) 92 01 13 07

Scientist – Chemical Ecology, Insect Behaviour, Insect Pest Management

Education:

2005	Dr. rer. hort. (Ph.D.) , Horticultural Sciences, Plant Protection, Entomology Leibniz University Hannover, Germany.
2002	Diplom (M.Sc.) , Horticultural Sciences Leibniz University Hannover, Germany.
1999	Vordiplom (B.Sc.) , Horticultural Sciences Leibniz University Hannover, Germany.
1997	LTA – Landwirtschaftlich Technische Assistentin (Laboratory assistant) , Biotechnology Federal Centre for Breeding Research on Cultivated Plants, Ahrensburg, Germany.

Work experience:

03/2013 – today	Independent research in chemical ecology, insect behaviour and pest management at the Norwegian Institute of Bioeconomy Research – NIBIO (former BIOFORSK), Biotechnology and Plant Health Division, Invertebrate Pests and Weeds, Chemical Ecology, Ås, Norway.
08/2016	Award: <i>The 2016 Research Article of the Year Award</i> of Journal of Agricultural and Food Chemistry and American Chemical Society, Division of Agrochemicals.
03/2013	Patent application: Use of pea plant volatiles to attract pea moth.
03/2011 – 02/2013	Postdoctoral research at the Norwegian Institute for Agricultural and Environmental Research - BIOFORSK, Research Division Plant Health and Plant Protection, Chemical Ecology, Ås, Norway.
03/2011 – 02/2013	Postdoctoral fellowship of the Deutsche Forschungsgemeinschaft.
03/2009 – 02/2011	Postdoctoral research at the Swedish University of Agricultural Sciences, Department of Plant Protection Biology, Chemical Ecology Group, Alnarp, Sweden.
02/2010 – 03/2010	Research visit at the Assiut University, Faculty of Science, Department of Zoology, Assiut, Egypt.
02/2006 – 12/2008	Postdoctoral research at the University Kassel, Department of Ecological Plant Protection, Witzenhausen, Germany.
09/2007 + 06/2007	Research visits at the Swedish University of Agricultural Sciences, Department of Plant Protection Biology, Chemical Ecology Group, Alnarp, Sweden. Funded by the Boehringer Ingelheim Fonds.
01/2003 – 12/2005	Doctoral thesis: “Soil application of neem products in integrated pest management: controlling thrips (Thysanoptera: Thripidae) in vegetable crops”, Leibniz University Hannover, Institute of Plant Diseases and Plant Protection, Entomology Group, Hannover, Germany.
01/2003 – 12/2005	Doctoral scholarship of the Deutsche Bundesstiftung Umwelt.
02/2004 – 12/2004	Research visit at the Asian Institute of Technology, Pathumthani, Thailand.
02/2002 – 12/2002	Funded by the Deutsche Forschungsgemeinschaft and the Deutsche Bundesstiftung Umwelt. Scientific assistant at the Leibniz University Hannover, Institute of Plant Diseases and Plant Protection, Entomology Group, Germany.

Selected projects:

- 2019-2022 **KJØLMARK** – Improved monitoring and control of wireworms (Coleoptera: Elateridae) in Norwegian potato production: **WP 4: Alternative methods for direct control of wireworms.** Work package leader. Funded by: Forskningsrådet / Matfondet, Norway.
- 2015-2019 **BRAKORN** - Improving the profitability of spring oilseed Brassica production – a key to improving quality and yield of cereal crops in Norway: **WP 3.2: Optimizing integrated pest management strategies for pest insects of spring oilseed Brassica.** Work package leader. Funded by: Forskningsrådet / KPN, Norway.
- 2015-2018 **SMARTCROP** – Innovative approaches and technologies for Integrated Pest Management (IPM) to increase sustainable food: **WP 1.2: Odor-based insect control combined with biological control.** Work package leader. Funded by: Forskningsrådet / Bionær, Norway.
- 2015-2017 *Integrated control of the onion fly in Norway – development of monitoring and prognoses* (Integrert bekjempelse av løkflue i Norge – Utvikling av metode for overvåking og varsling). Project leader. Funded by: Landbruksdirektoratet / FFL / JA, Norway.
- 2011 – 2013 *Pea odorants guide host finding behaviour in pea moth: a new strategy for sustainable insect management.* Project leader. Funded by: Deutsche Forschungsgemeinschaft, Germany.
- 2006 – 2008 *Development of a situational concept to control pea moth Cydia nigricana (Lepidoptera: Tortricidae) in green- and field peas* (Entwicklung eines situationsbezogenen Konzeptes zur Regulation des Erbsenwicklers in Gemüse- und Körnererbsen). Project leader. Funded by: German Federal Ministry of Food, Agriculture and Consumer Protection, BLE/BÖL, Germany.
- 2003 – 2005 *Soil application of neem products in integrated pest management: Controlling thrips in vegetable crops* (Möglichkeiten zur Nutzung von Bodenapplikationen von Neem-Präparaten im integrierten Pflanzenschutz am Beispiel der Kontrolle von Thripsen). Project leader. Funded by: Deutsche Bundesstiftung Umwelt, Germany.

List of publications:**International peer reviewed journals**

- Steen, R, Norli, HR, **Thöming, G.** 2019. Volatiles composition and timing of emissions in a moth-pollinated orchid in relation to hawkmoth (Lepidoptera: Sphingidae) activity. *Arthropod-Plant Interactions* (in press).
